

## ENGLAND'S KING IS JUST ALIVE

Artificial Means Used by Doctors to Keep Him Living.

## KNOWS THE WORST

Bulletins Give Little Hope of His Pulling Through the Sickness.

## MAY LINGER DAYS

London, June 25, 3 p. m.—The King has been informed of the seriousness of his condition and he is prepared for the worst.

**Prayers Said**  
Intercessory services are being held in all the churches, chapels and synagogues today. His majesty maintains his courage though largely under the influence of drugs and is often barely conscious.

**Encouraging Bulletin**  
An official bulletin issued at 2 this afternoon reads: "The King has passed a comfortable morning. His condition is so far satisfactory. (Signed) Treves, Laking, Barlow."

**The Noon Report**  
It was unofficially announced at noon that the King was progressing favorably. He was then awake and suffering no pain. From the highest sources, however, opinion concerning his majesty is altogether pessimistic.

**Princes Leaving**  
Leopold, Austria; Arch-Duke Ferdinand, Austria; Prince Albert, Belgium, left London by special train today enroute for home.

**Has Just A Chance**  
On high authority it is learned the King's physicians are unable to offer any encouragement. Life hangs by a thread.

**Particulars**  
The tubes described in the accounts of the operation are not for drainage purposes, this an authority states, but to replace a section of that bowel that has been removed. Nobody is able to live long with tubes so placed and the only hope is to remove the tubes and draw the bowels together and sew them.

**Chances Slim**  
The chances of such an operation being successful are so slight that they are barely worth considering. The royal family has been informed of the real state of the case and that the possibility of the King's recovery is most remote, though he may linger for days.

**The Fatal Third Day**  
The third day is apprehended. Nitroglycerine is being used to maintain vitality. Princess Christian was called to the palace at 2 this afternoon.

**Will Published Honors**  
By the King's special desire the coronation honors are to be published tomorrow as he has arranged.

**Postponed A Year**  
Liverpool, June 25.—The Post's London correspondent learns that if the King recovers the coronation will be held in the Spring of 1903, consisting of the Abbey ceremony only.

## OLEOMARGARINE LAW IS VALID

Michigan Supreme Court Upholds Statute Passed by Legislature.  
Lansing, Mich., June 25.—The supreme court has affirmed the constitutionality of the Michigan statute forbidding the manufacture or sale of colored oleomargarine and sustained the conviction of George W. Rotter, a grocer of Petoskey, who was convicted of selling the colored article. The court held that the legislature had power to pass this law and that the courts cannot consider the wisdom or policy of so doing.

## FACTORY ACTIVITY AT SPRING BROOK

Janesville's Manufacturing Suburb  
is Rapidly Becoming an Important Industrial Center.

High waters in the creek, lack of adequate means of transportation of materials and scarcity of needed supplies have together militated toward a serious delay in the completion of the new cement post factory in Spring Brook.

Repairs have been completed on the parts which were damaged by the washout of about a month ago, which destroyed over fifty feet of wall and tore down several of the piers of which there are two parallel rows extending the length of the building at intervals of eight or ten feet.

**Precautions Taken**  
The structure has been safely guarded against a repetition of a similar disaster by the grading work which has been done and is still under process where the old creek bed ran. The entire space between the walls up to the flow level is to be filled in with sand. In places it has been found necessary to haul dirt to a depth of from six to nine feet in order to grade the whole to the proper level.

The necessity for this was found in the fact that in the former washout the water rushed in between the walls and being hemmed in between the masonry with no means of egress from the funnel-like space, was obliged to create an opening. In the future the water will have to stay outside.

**Covers Much Ground**  
The factory will cover a space 60x1000 feet, about one-fourth the length to be used for office purposes and for the few pieces of machinery necessary in the manufacture of the posts, while the remainder will form a drying shed for the cement after it has left the hydraulic presses. The roof is to be comparatively low. John Peters, who has the contract for the work expects to have the roof completed in the course of next week.

**Who Does the Work**  
The work on the grading is being done by Hayes Bros. Jackson, as civil engineer drafted the first plans of the factory and O. Hilton completed the work from the architect's view point.

**Will Start Soon**  
The machinery will be installed as soon as it arrives. The material for the posts will be taken directly from the sand in the hill above the factory which was the deciding factor in the choice of a site. The sand will be delivered to the building by way of a revolving screen, a conveyor and a crusher. The principal position within, aside from the Scotch boilers, will be allotted to the massive hydraulic presses. The office will be near the western end of the South side. An endless chain system will be used to take the posts to the drying room where they remain for a period of several months, being sprinkled from time to time during the process. Slow drying is found to give the best results.

**Rushing Work**  
At present there are between twenty-five or thirty masons, tenders, graders and carpenters at work—more would be used to push the job to completion, but lack of material and difficulty in hauling it makes it impossible to keep more men busy. Two shovels are to be extended from the C. M. & St. P. tracks, one on each side of the factory and the grading is already completed awaiting the laying of the ties which will be begun as soon as the bridge over the creek is completed.

**Fix Road, Bed**  
The C. M. & St. P. R. R. construction crew has been at work with the pile driver for several days. Thus far all material has been hauled by teams and has been an extremely difficult task with the bad roads of the past few weeks. The heavy timbers, in the procuring of which some

Mrs. Pinkham Saying:

"DEAR MRS. PINKHAM:—I have been married for nearly two years, and so far have not been blessed with a child. I have, however, suffered with a complication of female troubles and painful menstruation, until very recently.

MRS. IDA L. ROSER.

"The value of Lydia E. Pinkham's Vegetable Compound was called to my attention by an intimate friend, whose life had simply been a torture with inflammation and ulceration, and a few bottles of your Compound cured her. She can hardly believe it herself to-day, she enjoys such blessed health. I took four bottles of your Compound and consider myself cured. I am once more in fine health and spirits, my domestic and official duties all seem easy now, for I feel so strong. You have a host of friends in Denver, and among the best. Yours very gratefully,—Mrs. Ida L. Roser, 325 18th Ave., Denver, Col.—\$5000 forfeit if above testimonial is not genuine.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write to Mrs. Pinkham, Lynn, Mass., for special advice—it is free.

difficulty was anticipated, are now on hand, and it is hoped that no further delay will be caused by lack of brick. The brick is being furnished by the Illinois Brick Co., of Chicago.

**Expect Much Work**  
When completed it is expected by its promoters that this factory will do a business surpassing in magnitude that of the Battle Creek, Mich., cement post factory, the only similar concern in the country. In its present location with its new machinery, it will be superior in location, equipment and proximity to an abundance of material to the plant in the health food town.

**The Button Factory**  
Monday marked the completion of the C. & N. W. side tracks to the new quarters of the Pearl Button factory, which has been located on North Main street.

Part of the machinery is already installed and the remainder is to be moved Wednesday. The entire force will be at work in the fourth ward on Monday or Tuesday next.

**Switching Accident**  
The switching engine on the Choate-Hollister furniture company's spur track backed into an empty box car on Monday night, standing near the end of the track with such force that it was bumped off the rails. In attempting to pull the car back onto the track the truck was wrenched off and the car was more or less dismantled.

**Canning Factory**  
P. Hohenadel, Jr., & Co., although standing idle at present have every reason to look forward to an unusually busy season in the canning factory. Crops seem to be universally successful, especially those lines which are most adapted for tinning purposes. The late completion of the plant last year and the wrecking of a portion of the system by the switching engine, both broke into the work of a complete season last year. Everything points toward a long period of activity during the approaching canning season.

**The Electric Barn**  
Work is rapidly being completed on the electric barn which is taking the place of the old one which burned last February. The last touches are being put on the repair room and after a general overhauling of the drill press and lathe and some other tools which have been slightly injured the work will be pronounced ended. This will be about the middle of July.

**A New Plant**  
According to the current number of the "Improvement Bulletin" the Wisconsin Sugar Company has concluded to erect sugar beet factories at the following places: Watertown, Kaukauna, Beaver Dam, Chippewa Falls, Green Bay, Oconto, Racine, Dorchester and Janesville.

The plants are in each case to cost \$500,000 which will cover the cost both of building and of all machinery. Deducting a large part of this for the equipment, it will still leave a handsome margin on which to erect the factory.

**Big Contracts**  
O. Hilton, who is architect for the Cement Post Company's factory, has at present among out-of-town contracts on his hands the following: An Armory for Beaver Dam. This is to be occupied by Co. K, of the 2nd regiment. A school house for Evans, Wis., near Chippewa Falls, and a library building for an Iowa town.

## ARTHUR JONES BUYS NEW MOTOR CYCLE

Runs Fifty Miles an Hour, and is  
the First One in the  
City.

Arthur Jones, son of W. H. Jones of the Rock River Woolen Mills, has the honor of being the first person in this city to own a motor cycle.

The machine came yesterday morning and is called The Marsh Motor Cycle and is built by the Motor Cycle Co. of Brockton, Mass. It is geared to run from four to fifty miles an hour, the motive power being furnished by a motor run by gasoline, and works on the same principle as the gasoline launches used on the river.

The machine was put together yesterday morning and after a little time spent by Mr. Jones in getting acquainted with the working parts he had no trouble in running it about at will.

It is quite a useful machine and will save a lot of hard work for the rider.

### Try Again.

There are many merchants who grow discouraged because a business failed to come as a result of an advertising venture. There are many reasons why some advertisements do not pull. There are often errors of judgment which cause the advertisement to fail. There are many chances for it to prove unprofitable, and the merchant is fortunate when he discovers the one essential feature which will insure success. If the advertisement has not pulled, it is advisable to keep at it until it does. Don't expect it to revise itself and gather force without the intelligent iteration which might be given it by a persistent and brainy business man. Try it to the limit. Keep it going until it wins and then the reason for advertising will be more clear and the wisdom of the work more apparent. It is easy to get results if the fight is hard enough and wisely planned.—Advertising World.

## FINE PROMISE FOR SUGAR BEET CROP

Indications Are That the Experiment  
Will Warrant the Erection of  
a Refinery Here.

The farmers who planted the experimental crop of sugar beets some time ago, report that the crop is coming on nicely and some of them are cultivating them for the first time. In some instances the farmer had to replant some of the seed but in most every case they now have a fine crop with good prospects for a successful yield.

There are about thirty-five acres under cultivation, scattered over the county and a successful growth is predicted in all sections. On the strength of this crop depends whether or not the Wisconsin Sugar Co. will build a large refinery in this city next year. If this experimental crop is a success there is no question but that the company will build the works here next season.

**The Hasty Man.**  
(Pittsburgh Dispatch.)

"The hasty man is never a traitor."—German proverb.  
The hasty man has never the time to engage in plots.

Because he is in haste he runs straight and crooked paths do not allure him.  
He is original enough to change his mind every once in a while.

Consistency is a jewel, but only second rate men are fond of jewelry.  
He is a weather vane, but he has his set as often on the feathers as on the point. He turns his back on the wind only when he has a mind to. The wind may switch him, but cannot drive him.

He talks too much for comfort, but never wittingly lies.  
He misses many of the good things of life—but never misses them. He makes more errors, but covers more bases than the cautious player.

As an enemy he plays fair; as a friend he is embarrassing. But he has more friends than enemies, in the which he but gets his due.  
And here ended the first lesson.

**Easy to Please.**  
"This world," he said, "jest suits me—  
Take it for all in all;  
Jest hot enough in summer—  
Jest cool enough in fall."

"Jest good enough for livin'—  
For livin' every day;  
With jest enough of roses  
To hide the thorns away."

"They say there's worlds above us.  
Where all the bright stars be,  
But this old world, good people,  
Has light enough for me!"—F. L. S.

**Testimonials.**

On the 10th day of September I called at Doctor Gilbert's office and began treatment. I had been bothered with a complication of troubles for fifteen years. I could not ride any distance at all without vomiting violently. My bowels were constipated, kidneys inactive and there was a catarrhal condition of head, throat and whole alimentary canal. After twenty-one treatments I can ride and feel well and strong in every way. Osteopathy has done more for me in twenty-one treatments than all the doctoring I have done for twenty-five years, and I think it is indeed a wonderful science. Respectfully,

MRS. JOE BARKER,

## FREDENDALL BLOCK CHANGES HANDS

Ira Fredendall Disposes of His Inter-  
est to His Brother—Value  
of \$15,000.

Ira Fredendall, who has been visiting in the city during the past two weeks has disposed of his third interest in the block at the northeast corner of Court and Main street to his brother Eugene Fredendall of this city.

The consideration was \$5,000 which would place the value of the building at \$15,000.

The structure is a three story brick and runs to an alley in the rear. It contains two store rooms now occupied by Pickett's grocery store and Hall's harness store.

### STILL KEEPS IT.

"During a period of poor health some time ago I got a trial bottle of Dr. Witt's Little Early Riser," says Justice of the Peace Adam Shook, of New Lisbon, Ind. "I took them and they did me so much good I have used them ever since." Safe, reliable and gentle, Dr. Witt's Little Early Riser neither grips nor diarrhoea but stimulates the liver and promotes regular and easy action of the bowels.

### BUNKO MEN BUNKED.

New York State Farmer Gets More  
Than Even with Two Smart Fel-  
lows from the City.

According to a country correspondent of the New York World Farmer Thomas J. Nearn, of Shawangunk, got the better of a pair of bunko men.

The first one, representing himself as a New York business man in want of a country place, called on Nearn and offered such a liberal price for his farm that a deal was soon made.

The two were looking about the farm, and the purchaser was telling of improvements he proposed to make, when Bunko Man No. 2 put in an appearance. He was roughly dressed, and professed to be a drover anxious to buy stock. He acted as if half

"THROW UP YOUR HANDS!"

drunk, and soon began bragging of a new game he had learned in New York last week. Then, producing some cards, he began throwing them clumsily and offering to bet that no one could pick out the "joker."

The farm buyer made several wagers and won easily, and then found it easy to persuade the farmer to try his luck. The manipulator of the cards suddenly grew skillful, and very soon the proceeds of Farmer Nearn's last milk check, about \$50, was in the drover's pocket.

With the loss of his money came the realization that he had been victimized.

"I've got some more money in the house," said Nearn, "and I'll get it and try my luck again. That dod-gasted joker can't fool me allus."

He made a quick trip to the house, and on his return pulled out, not a "roll," but a revolver, which he leveled at the bunko men and told them to throw up their hands.

They saw determination in the old man's eye, and up went their hands. His first cure was to relieve them of their revolvers. This done, he said: "Now, hand over my money and all the other cash you've got about your measly carcasses."

They handed it over.

"Then he told them to 'git,' and they 'got.'"

"Doing bunko men pays a durned sight better and is a heap more excitin' than farmin'," he remarked to his neighbors.

## AGREEMENT ON CANAL PROJECT

Conference Is Expected to Definitely Decide on Spooner Plan.

### SENATOR MORGAN QUILTS FIGHT

Gives Up Struggle for Nicaragua Route and Joins Conference in Amending Bill So It Will Be Acceptable to Both Houses.

Washington, June 25.—The session of the conference committee on the isthmian canal did not develop any important differences and encouraged the hope that an agreement will be quickly reached. Senator Morgan of Alabama, chairman of the isthmian canal committee and one of the conferees, who has been the prime mover in the Nicaragua campaign, bows to public sentiment and the views of a majority of both houses of congress and shows no disposition whatever to continue the fight which he has been so gallantly making for years to secure the passage of a Nicaragua canal bill. He is cordially joining his colleagues on the conference committee in amending the senate bill so that it will pass and become law.

**Accept Spooner Bill.**  
The acceptance of the Spooner bill, which passed the senate, as the measure to be put into form to become law, was determined upon. The appointment of Senator Kittredge and Representative Hepburn by their colleagues on the conference committee to draft an amendment to the Spooner bill demonstrated that it is to be reported by the conferees, and also showed that there is to be no needless delay.

Senator Kittredge and Mr. Hepburn are to prepare an amendment which will facilitate the negotiations of the president in acquiring clear title to the Panama company's property and rights and remove all opportunity for any company, corporation or individual to come in after the United States has assumed control and file a claim.

**Abandon Time Limit.**  
The discussion among the conferees indicated that the proposition of the house conferees that a time limit in which the president shall negotiate for the title of the Panama route will be abandoned.

The prospects are bright for an early agreement among the conferees and a prompt report to both houses in favor of the acceptance of the Spooner bill with the amendment mentioned. A conference report of this kind will be quickly accepted by the house as well as the senate.

### DENIED CITIZENSHIP.

Former Resident of Philippines Prevented from Filing Declaration.

Washington, June 25.—What amounts to an official pronouncement of the administration's position on the question of citizenship in the Philippines, pending further legislation, was filed in the Supreme Court of the District of Columbia. It is in the form of an answer to the rule of the court to show cause why a mandamus should not issue requiring John B. Young, clerk of the court, to allow Antonio M. Opleso y de Yeaza, recently an inhabitant of the Philippines, to declare his citizenship intentions before Mr. Young as clerk, as petitioned by the Filipino. The answer prepared by United States District Attorney Gould and approved by Attorney General Knox points out that Congress has not yet determined the civil rights and political status of the Philippine inhabitants; that the petitioner is not included in any class of persons authorized by law to declare their intentions to become citizens of the United States, and that the defendant, Young, is without any authority to receive such declaration.

### Statehood Bill.

Washington, June 25.—Disappointment was again in store for the friends of the omnibus statehood bill, as Senator Quay was unable to get the measure before the Senate. Dilatory tactics were restored to by the opponents of the bill, and Mr. Quay was forced to make a frank declaration that he positively would permit no form of filibustering to be indulged in, nor would he permit any measure to pass requiring unanimous consent until an arrangement is made for the consideration of the house bill admitting the territories of New Mexico, Oklahoma and Arizona as states. Mr. Quay is confident that he has enough votes to pass the bill.

### Eight-Hour Hearing.

Washington, June 25.—The senate committee on education and labor continued its hearings on the eight-hour bill. Statements favorable to the bill were made by Samuel Compers of the Federation of Labor and John O'Connell, and by J. K. McCammon and L. E. Payson in opposition. Messrs. McCammon and Payson contended that it would be impossible for shipbuilders having government contracts to segregate the government work from other work.

### Democratic Caucus.

Washington, June 25.—A caucus of Democratic members of the house will be held at 8 o'clock Friday night to consider the tariff and trusts, with a view to making these subjects foremost in the coming campaign for congress. The first move in this direction was made by the Democratic congressional committee and the petition for the caucus was circulated by Chairman Griggs of that committee.

### Thurber Corrects Testimony.

Washington, June 25.—F. B. Thurber, who testified before the senate Cuban committee regarding payments received from the military government in Cuba for the promotion of reciprocity sentiment, sent a letter to Chairman Platt, saying he desired to correct his testimony so as to make it show that he received four vouchers of \$2,880 each, or \$11,520 in all.

### Will Retain Capitol Saloon.

Washington, June 25.—Among the amendments to the immigration bill recommended by the senate committee on immigration is one eliminating from that measure the provision inserted by the house for the prohibition of the sale of intoxicating liquor in the national capitol building. The provision was struck out on the point of order that it is not germane.

### Ratify Danish Protocol.

Washington, June 25.—The protocol providing for the extension of the time for the ratification of the treaty between the United States and Denmark for the sale of the Danish West India Islands to the United States has been ratified. The time is extended for one year.

### EXPOSES FAMILY TO THE PEST

Wielded Revenge of a Well Driller Afflicted with Smallpox.

Marion, Ind., June 25.—Wade Murphy, an oil well driller of this city who had smallpox, escaped quarantine and went to the home of his brother-in-law, Noah Kreps, near Bluffton, against whom he had a grievance, exposed the family to the disease and then went to Van Buren, where he was cared for by the health officers. Six of the Kreps family and three members of the family of James Murphy, a neighbor, now have the disease and are in quarantine. Wade Murphy wrote a letter to his brother-in-law telling him of his scheme, for revenge when he learned the family had taken the disease.

### NO HANDSHAKING AT THE FAIR

President Lays Down a Rule for His Visit at Springfield, Ill.

Springfield, Ill., June 25.—Word was received from Secretary Cortelyou that President Roosevelt will be the guest of the state board of agriculture upon the occasion of his visit to this city Thursday, Oct. 2. It is settled that there will be no handshaking. The President says it will be impossible to shake hands with all, and therefore he considers it best not to attempt a general reception at the fair grounds.

### ELECTRIC LAMP CAUSES DEATH

Current Grounded by Means of a Pan and Iron Rail.

Croton, N. Y., June 25.—Mrs. J. D. Anderson was walking through her husband's store, carrying a pan of cherries when she stopped and raised her hand to turn on an electric lamp, and to steady herself is supposed to have rested the pan against an iron railing about the counter. The light current was grounded, and she received a shock of 1,800 volts, causing instant death.

### More Pay for Street Car Men.

Cleveland, O., June 25.—A voluntary increase in wages to all motormen and conductors has been granted by the Cleveland Electric and the Cleveland City Railway Company to take effect July 1. The new wage scale for both motormen and conductors provides 20 cents an hour for first-year men, 22 cents an hour for second year men and 23 cents for three or more years.

### Wreck on Lake Shore.

Fort Wayne, Ind., June 25.—A wreck occurred in the Lake Shore & Michigan Southern yards, which resulted in the loss of a large number of freight cars and seriously injured John Ern of Winamac, Wis. He was in charge of a truck pony bound for Montpelier, which was killed.

### Hard to Secure Jury.

Atlanta, Ga., June 25.—The case of Millard Lee has been taken up before Judge Candler, the defendant being the slayer of Miss Lilla Suttles in the Ben Hill church. Only ten jurors have been secured so far out of eight panels.

### British Freighters to Merge.

Glasgow, June 25.—There is a seemingly well-authenticated report among shippers in Glasgow that negotiations are being concluded for an important combination among the owners of freight sailing vessels of Great Britain.

### Vanderlip to Go Abroad.

New York, June 25.—Frank A. Vanderlip, vice president of the National City bank, has been appointed a delegate to the international conference of commerce and industry which will meet at Ostend, Belgium, in August.

## NURSE POISONS HER PATIENTS

Jane Toppan Admits Killing Thirty-one Persons Whom She Attended.

### CONFESSES TO HER COUNSEL

Is Most Remarkable Criminal in History, Taking Life of Those She Waited on to Satisfy a Craving to See Death.

Boston, Mass., June 25.—Jane Toppan, the trained nurse acquitted of the charge of murder on grounds of insanity and sent to the asylum at Taunton for life, says she has poisoned thirty-one persons during the last ten years. She says she has never felt remorse. Inspired by a mania, which led on seeing a person die, she says she gave them poison and watched their death struggles.

The woman has given to her counsel, Judge Fred M. Bixby, the names of thirty-one persons whom she administered fatal doses of morphine and atropine. Among them are men and women who were attended by the leading physicians of Cambridge, Somerville and Lowell. It is Miss Toppan's boast that in no instance did the physician suspect that death was the result of other than natural causes.

### Has No Parallel.

If even a small part of her story is true, Jane Toppan stands as the greatest criminal ever arraigned at the bar in the United States. It is doubtful if, as a pioneer who successfully duped scores of men and women during her career, she has been equaled by any one of homicidal mania in modern times. Certainly none of standard medico-legal works contains a parallel case. In no volume in print have the authorities and investigators revealed such a multitude of offenses against law and nature.

The three alienists who examined into Jane Toppan's sanity marveled and thought she was an extraordinary criminal, when she confessed to them that she had poisoned eleven persons and attempted to kill two others. But to these men she told only one-third of the tale of her professional career.

### Admits Poisoning.

Since her incarceration Jane Toppan has only once denied that she poisoned Mrs. Gibbs, Mrs. Gordon and Mr. Davis at Cataumet, which cases first started the investigation that led to her arrest, indictment, trial and sentence to the Taunton insane asylum for life. The exception was her old friend and junior counsel, James Stewart Murphy of Lowell. She hesitated to unfold the history of her acts to the friend of her youth. To her senior counsel and to the experts she has been frank, concealing nothing and telling that which was never suspected.

To Judge Bixby, upon his first visit, she made the tales of Lucretia Borgia appear mild. Her counsel went to the jail expecting to listen to an ordinary story of a professional nurse, satisfactorily accounting for the deaths of the three members of the Davis family at Cataumet, all of whom never were considered by their relatives and friends to have been strong physically. But before the lawyer left he was conscious of the fact that he had, if she was telling even a small part of the truth, become counsel for the most persistent, successful, unaffected criminal of centuries.

### PRINTERS CONVENE IN AURORA

Allied Crafts Union of Illinois Begins Annual Meeting.

Aurora, Ill., June 25.—The tenth annual convention of the Allied Printing Crafts Union of Illinois was called to order by State President Thomas Sheehan of Elgin. The following committee on credentials was appointed: J. A. Onyiah, Peoria; J. A. Grady, Chicago; W. Bramhall, Alton; Frank Irvine, Elgin; and George Eames, Aurora. Among those in attendance are: J. H. Bowman, president of the State Federation of Labor; E. W. Laturn, president International Brotherhood of Bookbinders; J. J. Kinsley, secretary Allied Trades Council, Chicago. The convention is attended by about thirty delegates, and it is expected that a large number of visitors will be present from Chicago.

### IS BEATEN BY THE WHITE CAPS

Punished for Breaking Ribs of His Father-in-Law.

Bloomington, Ill., June 25.—L. Whitney lies in a critical condition at his home in the southwestern part of the county owing to a whipping administered by white caps. Twenty masked men dragged him from his bed Monday night, tied him to a tree near by and lashed him until he was almost dead. Whitney quarreled with Simpson Chambers, his father-in-law, Sunday, and in the fight that followed broke two of Chambers' ribs. The chastigation given by the white caps was the result of the fight.

## Rheumatism

The liniment bottle and flannel strip are familiar objects in nearly every household. They are the weapons that have been used for generations to fight old Rheumatism, and are about as effective in the battle with this giant disease as the blunderbuss of our forefathers would be in modern warfare.

Rheumatism is caused by an acid, sour condition of the blood. It is filled with acrid, irritating matter that settles in the joints, muscles and nerves, and liniments and oils nor nothing else applied externally can dislodge these gritty, corroding particles. They were deposited there by the blood and can be reached only through the blood. Rubbing with liniments sometimes relieve temporarily the aches and pains, but these are only symptoms which are liable to return with every change of the weather; the real disease lies deeper, the blood and system are infected. Rheumatism cannot be radically and permanently cured until the blood has been purified, and no remedy does this so thoroughly and promptly as S. S. S. It neutralizes the acids and sends a stream of rich, strong blood to the affected parts, which dissolves and washes out all foreign materials, and the sufferer obtains happy relief from the torturing pains.

S. S. S. contains no potash or other mineral, but is a perfect vegetable blood purifier and most exhilarating tonic. Our physicians will advise, without charge, all who write about their case, and we will send free our special book on Rheumatism and its treatment.

## A DAISY WEDDING UNIQUELY PRETTY

### AMY BOWLES THE HAPPY BRIDE

Her Marriage with Dr. A. N. Thompson Is Beautified by a Wealth of Field Flowers.

Standing in a bower of daisies, palms and ferns and surrounded by a large company of relatives and friends, Miss Amy Bowles became the wife of Dr. Arthur Nelson Thompson, of Milwaukee, the wedding service taking place this afternoon at one o'clock.

The marriage was performed by Rev. Richard M. Vaughan, pastor of the Baptist church, at the home of the bride's parents, Mr. and Mrs. C. E. Bowles, 164 North Jackson street, the happy event being witnessed by about eighty relatives and friends of the contracting parties.

A Beautiful Wedding. It was a beautiful and unpretentious home wedding, simplicity and tasteful taste characterizing all the details. Save for the bower of green foliage and starry blossoms, which made the south bay window of the home an effective background for the bride and groom, there was no attempt to any set form of decorations throughout the spacious parlors. Everywhere were great bunches of the pure white, yellow-centered daisies, which nodded their graceful heads amid their own delicate foliage and beautified not only the parlors and the large reception hall, but the broad stairway, the upper hall and the dressing rooms on the upper floor. A wonderful profusion of the modest flowers of the field were used and they made an unusual and very artistic decoration. Ropes of smilax were also used effectively in the doorways. Little Misses Sara Garbutt and Wilma Soverhill, former primary pupils of the bride, presided prettily at the front door and the head of the stairs.

Exquisite Music. The marriage ceremony was made especially beautiful by the singing of the wedding march from Wagner's "Lohengrin." The selection was well rendered by a quartette consisting of Miss Bessie Greenwood and Dr. and Mrs. F. A. Thompson, of Milwaukee and Supt. H. C. Buell, of this city. Dr. Thompson being a brother of the groom. The singing continued while the happy couple, unattended save by the officiating clergyman, descended the stairs and took their places in the bridal bower.

Handsomely Gowned. The bride was becomingly attired in a handsome gown of sheer white wash chiffon, elaborately tucked and trimmed with lace. She carried a large bouquet of bride's roses. Following the exchange of marriage vows, Smith's orchestra played several selections exquisitely.

The Wedding Luncheon. Congratulations were followed by the serving of the elaborate three-course wedding luncheon. The floral decorations on the bridal table at which were seated the bride and groom and the members of their immediate families, were unique and beautiful. Chains of daisies were looped from the central chandelier to the corners of the table in the center of which stood a great bowl of daisies. This was surrounded by a flat floral centerpiece the design being four hearts, executed in the daisies.

The other wedding guests were served at small tables, the waitresses being the Misses Marjorie Nicholson, Agnes Griebel, Florence Spellman, Hazel Dewey and Ada Longley, five young girls who had been the bride's pupils during the past year.

An Accomplished Bride. The bride is the youngest daughter of Mr. and Mrs. C. E. Bowles and grew to womanhood in this city. She graduated from the Janesville High school in the class of '30 and has been one of the most successful primary teachers the public schools have ever known. She resigned her position as teacher of the first grade in the Washington school last year and since that she has substituted for Miss Jennie Paterson in the seventh grade at the Lincoln school. She is an accomplished musician and for some time past has been the organist at the Baptist church.

Will Live in Milwaukee. The groom is one of Milwaukee's rising dentists and is a graduate from the school of dentistry of the Milwaukee Medical college in the class of '39. He is well-known in He and his bride will go to house-keeping in Milwaukee after a short wedding trip, their home being at 3116 Clybourn street in Merrill park. This home will be filled with reminders of Janesville friends, the bride having been the recipient of many costly wedding gifts.

Among the wedding guests from out of the city were W. H. Thompson, father of the groom, Dr. and Mrs. F. A. Thompson, Miss Bessie Greenwood and Martin Taylor, all of Milwaukee, W. A. Hand, uncle of the groom, of Des Moines, Ia., and Mr. and Mrs. O. F. Bowles, uncle and aunt of the bride, of Dell Rapids, S. D.

#### NEWS OF THE CITY IN BRIEF.

Work on Library: Work on the public library building is at a stand still and has been for the last ten days on account of the non-arrival of the heavy timbers for the joists. They have already been on the road over a week and the railroad company are trying to trace their whereabouts. The delay is causing Cullen Brothers, the contractors, considerable trouble as they have had to take the men and put them on other work.

Church Picnic: The Congregational church choir spent yesterday afternoon at Burr Springs as the guests of Mrs. Laura E. Burr. The ladies went up to the springs on the Clipper at 1:30 and the gentlemen went up at 4:30 and staid to tea.

Marriage Licenses: Marriage licenses were issued yesterday to Frederick J. Hamlin and Ann Elizabeth

Kelleher, both of Beloit. Arthur N. Thompson of Milwaukee and Amy Bowles of Janesville.

The White Robin: The white robin, which has made her home in the court house park for the summer has raised three young ones who do not resemble their peculiarly colored mother in the least. They are the color of the ordinary robin and look quite odd hopping around after their parent.

Terrible Turk Here: The Terrible Turk's wrestling partner arrived in the city today and is quartered at the Hotel Myers.

Crystal Camp Meeting: There will be a regular meeting of Crystal camp No. 132, R. N. of A., this evening at West Side Odd Fellows hall.

King's Daughters Meet: The King's Daughters of the Baptist church will meet in the church parlors this afternoon at 2:30 o'clock and Mrs. McDonald will have charge of the devotional exercises.

Accident at Bottling Works: Fred Herrmann, an employee of the bottling mills caught the index finger of his right hand in a carder smashing it so badly that amputation may be necessary.

Injured His Hand: Walter Hildson, a pile driver helper on the St. Paul road had his hand caught in a block and tackle yesterday and as a consequence may lose some of his fingers.

## OPENING PLAY OF GOLF CLUB

### THE LADIES GIVE A SUPPER

First Round for the Richardson Medal Gone Over Tuesday Afternoon by Six Pairs.

It was a jolly crowd that gathered yesterday afternoon and evening at the St. Ignace Golf club links, to watch the first round of match play for the Richardson medal and enjoyed the club supper and a dance later in the evening.

Six of the eight pairs to play for the medal made the circuit of the course, Albert Schaller and Chas. Achterberg postponing their game until later in the week, and F. E. Field forfeiting to Leo Brownell.

The result of the match was as follows:

Ladies' Contest

After the match for the Richardson medal was completed the ladies entered an approaching and putting contest. The conditions were to approach three balls from a point fifty yards distance from the hole and hole them out. The prizes offered were a dozen balls donated by the gentlemen.

This match proved to be great fun for the ladies and a large number took part in the event, while the balance of their lady friends stood around the home green and made remarks about the fine work done by the contestants.

Miss Schlicker Won

The lowest scores were made by Elizabeth Schlicker, May Valentine and Mrs. H. M. Pulker, who holed out the three balls in 10 shots. The next best score was made by Mrs. Charles Schaller, with a total of 12. There being four prizes the first three were divided equally among the ladies and the fourth went to Mrs. Schaller.

Supper Served

At 6:30 o'clock a club supper under the supervision of Mrs. H. H. Bliss assisted by Mrs. J. L. Wilcox was served in the club house of which 140 partook. After the supper Roy Carter presided at the piano and the club members and their friends, enjoyed a social dance until about eleven o'clock, when the party broke up.

To Entertain Rockford

The club members are making preparations to entertain a large delegation of Rockford golfers on Friday. It is expected that about forty members of the club including ladies and gentlemen will be present and enjoy the hospitality of the St. Ignace club.

Pick Locals To Win.

The Rockford papers seem to think that their team is not to be compared with the St. Ignace team, and that the home club should put up B class players against the Rockfords. Evidently they have not heard how the St. Ignace team came out on their recent trip to Racine and Kenosha, or they would discover that A and B class players was "a distinction without a difference." With all due regard for the Rockford club the best thing the Janesville club can do is to put up players who can win.

The St. Ignace club members will see that everything in their power is done to make the day one of pleasure for the visitors.

Madison July 12.

A tournament between Janesville and Madison has also been arranged for July 12. The first game will be played in this city and a return game in Madison later on in the season. The Madison club is taking great interest in this match and their first tourney to get their players lined up will be held on Thursday.

State Match

The Wisconsin State tournament for the championship cup will be held in Milwaukee over the course of the Milwaukee Country club July 24-25 and 26. The St. Ignace club expects to send in quite a number of players for this event and hope to be able to bring back the cup.

## BODY RECOVERED AFTER LONG SEARCH

### BOY FELL IN WHILE PLAYING

Prompt Effort of Senator Whitehead and Others to Rescue Walter Kaempflein, Were Fruitless.

For over three hours after Walter Kaempflein sank to his tragic death in Rock river yesterday afternoon, the search for his body proved unsuccessful and it was not until 7 o'clock last evening that the lifeless form was recovered. Even then an effort to resuscitate him was made but the spark of life had been completely extinguished.

The boy's death seems to have been destined by an unalterable fate for the attempt to rescue him began immediately after he sank from sight. Charles Davis, the young boy who was in the row boat with Master Kaempflein, ran immediately to the end of the boat and when his companion rose he tried to reach him but failed. The fated boy never rose again and his frightened friend hastened to the shore and ran to Ford's mill where a telephone message was sent to the west side fire station.

Senator Whitehead to the Rescue. On his way to the mill, young Davis met Senator Whitehead, to whom he gasped out the sad news. Senator Whitehead went immediately to the shore and prepared to jump into the water, should the body reappear. Almost instantly he was joined by other parties with grapnel hooks, Patrick Fanning having hurried from the fire station in company with others who had heard of the accident.

Had it been possible to locate the body at once, the young life could have been saved, but the deep water and swift current baffled the searchers. The accident occurred less than ten feet from shore, about twenty feet below Ford's mill and the body was finally discovered by Geo. and Washington Harnage, twenty feet lower down the river.

How the Accident Happened. Young Kaempflein and Davis were sitting in a row boat, which was fastened to the shore and Kaempflein tried to catch a stick which was floating down stream. The boat lurched a little, the boy straightened up, then leaned over again and fell over head first into the water. He had been forbidden to go near the river and his mother had no idea that he ever disobeyed her.

A Saddened Home. The shock of the boy's sudden death was a terrible blow to his widowed mother, Mrs. Johanna Kaempflein, whose burden of bereavement has been a heavy one. Within a few months in the fall of 1898, death deprived her of her husband, the late Rev. George Kaempflein, former pastor of St. John's Evangelical Lutheran church, and of her daughter, Esther. Now she mourns her youngest son, who, being the baby of the family, was the special pet of mother, brother and sisters. Master Walter was twelve years of age and was a bright, lovable child. Those who grieve for a beloved brother, are Mrs. Agnes Smith, of Chicago, Gustave, Mary, and Emma Kaempflein, who live at home.

Funeral Tomorrow. Funeral services will be held tomorrow afternoon from the home, 203 Fourth avenue, at 2 o'clock and from St. John's church at 2:30 o'clock.

## MRS. MACKAY'S HOME.

It is located in the best part of London and always filled with clever men and women.

It has been said here of every clever woman of wealth who had the means and the ability to entertain smart and bright company, and get the best sort of people to her receptions, that they were trying to revive the salons of the women of the French empire. The latest victim of this report is Mrs. John W. Mackay, wife of the "bonanza" millionaire of the Pacific coast.

Mrs. Mackay has lived on this side of the water for nearly a quarter of a

## SANDALS FOR WOMEN.

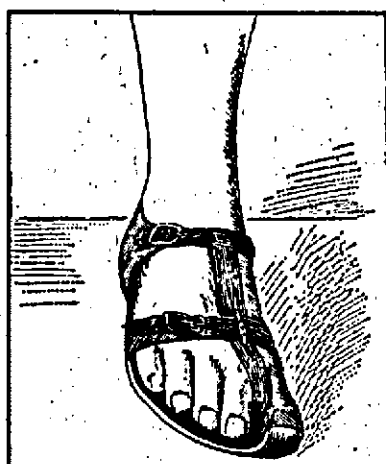

Crazy London Fads Has Struck Chicago and May Find Fair Devotees Elsewhere.

If you want to be strictly up to date and follow English styles conscientiously get a pair of sandals. They are here, and the women of Chicago are threatened with a new fad. It is a footwear fad. None of the sandals has been sold yet, but one of the biggest dry goods stores has them in stock and expects a great sale.

Shoe manufacturers have gone back several centuries and sprung a novelty, patterned after the old Greek sandalium. The new footdressing isn't exactly an imitation of the sandalium, but it is so near it that there is little use of drawing distinguishing lines.

About the only difference between the old sandal and the new is that in the modern production buckles are used instead of knots and the great toe is incased in a leather shield in place of being separated from the second toe by a narrow strap. The sandals now on sale in Chicago for the first time are made of heavy sole leather and are formed after the shape outline of the foot. They are held in place by three straps. One passes across the top of the foot at the base of the toes, the other crosses the ankle just above the instep, while the third runs from this last binding cord to the end of the great toe, forming a pocket in which the toe is concealed. The heel support is made of heavy leather, and when the straps across the top are buckled the foot is held firmly in place.

The bottom of the sandal is perfectly flat, and when worn allows all of the foot to touch the ground. The sandals are intended principally for house wear. They are in reality a "loafing" shoe, but they could be worn on the street if a woman could be found with nerve enough to introduce the innovation. They are also expected to be popular with children, who eschew shoes and stockings in summer, yet whose feet are so tender that they blister when brought into contact with hot pavements. The sandal, however, can as well be worn with stockings, and that is why they are likely to become popular among

THE NEW ENGLISH SANDAL.

women, who try to be as cool as possible during the summer months.

The modern sandal craze caught London society last year, and during the summer the skeleton shoes were worn by scores of prominent women. They also were popular in this country along the sea shore, where protection for the feet and comfort form a combination that is rather hard to meet. They are likely to be quite generally worn at lake resorts around Chicago during the coming season, although the people who maintain summer homes have not as yet shown any more interest in them than to smile when they saw them on shoe dealers' counters.

The old Greek sandalium, after which the up-to-date manufacturers' novelty is patterned, consisted of a thick sole of wood, cork, or leather, with a strap carried over the foot in front of the socket of the great toe, passed between this and the second toe, and tied to the other bands fastening the edge of the sole before and behind. The back was supported by strap work which was often neatly intertwined above the ankles.

Soles of a more simple kind were bound underneath the foot and tied together in a knot or by a clasp. Soles also were worn which were provided with a close-fitting piece of leather, at the heel and with a piece of leather sometimes broad, at the sides. These last were so laced together by straps round the ankles that the soles and flat of the foot remained uncovered.—Chicago Tribune.

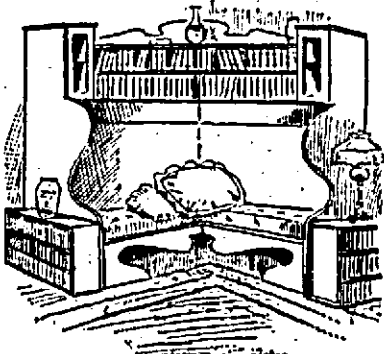

### Watercress for the Blood.

Watercress contains much iron and this is a real blood medicine. People who desire to have good complexions should eat of it abundantly, because it is a destroyer of pimples and a cleanser of the entire system. Watercress will also neutralize chalk in the blood, which limy matter is the great cause of the aging and stiffening of the fibers. Those who would feel young and look young, therefore, should eat watercress.

## LIBRARY COZY CORNER.

The Suggestion Here Given Will Work Out Well Under a Bright Woman's Direction.

This sketch, if well worked out, will make a very suitable addition to any library; or, if one does not soar so high as that, it forms in any room quite a library in itself. The usual methods of building a cozy corner are followed, but care should be taken that it is constructed strongly, to stand the weight of books. Above the seat as many shelves may be fixed as desired, although we show only three in our design. To give more room for the storage of books two small open cupboards fitted with shelves can be built outside each of the two arms. The woodwork will look best if stained and polished, but

COZY LIBRARY CORNER.

as this is rather above the amateur it would perhaps be better emulated. At the extreme end of the shelves two other cupboards are constructed within the two, upright arms. These should be fitted with glass and will give an opportunity for the display of rare china or other curios. They might also be used for storing expensive or artistic books. The little corner bracket above the shelves should be noted, as other little embellishments of a similar kind could be added. The seat need not be upholstered if two flat cushions be made to fit.—Chicago Daily News.

COURTING DANGER.

It is courting danger to stand under icy eaves. Not a few have learned this to their cost. Every winter injury and even death are reported as the result of this carelessness. But there is a far more popular way of courting danger. Every man or woman who neglects a cough is inviting sickness, and many a fatal sickness has its beginning in a slight cough.

The timely use of Dr. Pierce's Golden Medical Discovery will cure the cough. Even when the cough is obstinate and there is hemorrhage with emaciation and weakness, "Golden Medical Discovery" always helps and almost always cures. "I was troubled with a bad cold, which settled on my lungs and left me with a miserable cough," writes Mr. Joseph D. Burns, of 313 Hudson Street, New York. "I used two bottles of your 'Golden Medical Discovery,' after which my cough disappeared entirely. I cannot recommend your medicine too highly."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood, and lungs. Substitution means a little more profit to the dealer but a loss to you.

The Common Sense Medical Adviser, 1008 large pages, in paper covers, is sent free on receipt of at one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

## ESTES G. RATHBONE IS IN WASHINGTON

Declares He Has Evidence that Gen. Wood's Career in Cuba Was One of Maladministration.

Washington, June 25.—Estes G. Rathbone, formerly director general of the Cuban postal service, has arrived in Washington. He had three conferences with Senator Hanna. He called on Postmaster General Payne and before he left the postoffice department building received a flattering greeting from hundreds of clerks who knew him when he was connected with the service.

Rathbone is full of fight. He is ready, he says, to present evidence regarding the administration of Gen. Wood in Cuba which will shock and nauseate the American people. He will seek to have his evidence made public through the medium of a congressional investigation. In any event he does not propose that Wood shall enjoy the reputation which has been sedulously built up for him in Washington.

He has in his possession a trunkful of documents pertaining to the expenditures of the late military government in Cuba. Included are copies of bills which, he says, Secretary Root will not stand for. He charges that Wood's career in Cuba was one of maladministration from beginning to end.

Rathbone is also hot on the trail of former Postmaster General Smith, whom he characterizes as "a weak sister."

### FINE BAND CONCERT

Despite Threatening Clouds A Number Heard the Music.  
The Imperial band gave their first open air concert of the season in the court house park on Tuesday night. A large crowd was present grouped on the slopes about the fountain or standing here and there on the walks and grass near the stand.

The showers which came about nine o'clock were a rude interruption in what promised to be an almost perfect evening. The rain kindly forebore until Leader Kneff's man had played to the end of all but one number of an excellent program. The pieces selected were as follows:  
March, Marcus Brutus.....Morris  
Overture, Old Gold.....Rockwell  
Song and Dance, Darling Flo.....Hall  
March, Blaze Away.....Holzmann  
Babbie Waltzes.....Foust  
March, Whispering Smith.....Willis  
March, Chuta Vista.....Rollinson
